

Breaking New Ground...

As commercial real estate experts for over 40 years, The Perry Group provides the expertise and professional service that is necessary to satisfy the client in today's evolving marketplace. Active participation in national professional associations serves as a virtual network of information and exposure.

*With "ordinary" commercial real estate activities, we are at least as good as anyone in the field.
We excel when we can add value, by doing the extraordinary or unusual.*

Whether it's disposition of an existing property, acquisition of land for expansion, build-to-suit and leaseback of new facilities or any other mode or representation, The Perry Group transcends the usual and offers creative, cost effective solutions in an effort to represent our clients. We don't think of ourselves as traditional "agents", rather, we become an extension of our client.

Commercial is an extremely objective business, as professionals with a deep understanding of market dynamics, we provide expertise with limited subjectivity.

Our clients range from local one-property owners to Fortune 50 corporations. And with offices in Kankakee, Chicago and the Suburbs, our market expertise is unparalleled.
