Whether its disposition of an existing property, acquisition of land for expansion, build-to-suit and leaseback of new facilities or any other mode of representation, The Perry Group transcends the usual and offers creative, cost effective solutions in an effort to represent our clients. We don't think of ourselves as traditional "agents", rather, we become an extension of our client.

Our clients range from local one-property owners to Fortune 50 corporations. And with offices throughout the Greater Chicago area, our "market" stretches virtually nationwide.
