Trades Council

Perry Group, Ltd. believes in the economic development and welfare of Kankakee County commerce and industry. In addition to our commitment to investment in Kankakee County, during the last three years we have invested over \$22.5 million in economic development projects outside Kankakee County. These investments include real estate developments in St. Clair, JoDavies and Cook Counties.

Our commitment to Kankakee County is evidenced by the fact that over \$13.5 million of our investment in these other counties was brought back to Kankakee County by hiring Kankakee County contractors, suppliers and professional services for these developments.

According to the Buy Local-Hire Local initiative, which we thoroughly endorse and support, this investment creates approximately \$94.5 million in our local economy through the reinvestment by these local companies.
